**Wed. October 25, 2017
Check-In 1:00 PM**

WHERE:

**150 MOTOR PARKWAY
LOWER LEVEL
HAUPPAUGE, NY 11788**

Hosted by

The NYS Department of Environmental Conservation (DEC) recently announced the release of final revisions to the state's Solid Waste Management Regulations, commonly referred to as Part 360. This is the first major overhaul of the program in 20 years and includes new design standards and operational criteria for all solid waste management facilities.

With new regulations scheduled to take effect on November 4, 2017, LICA felt it was important to provide its members and partners with a review of these new regulations, which could have substantial impacts for many within our industry.

Our presentation will address key regulation changes and will be most appropriate for:

- **General Contractors & Subcontractors**
(Heavy/Highway, Commercial, etc.)
- **Recycling & Demo-Related Businesses**
(Construction & Demolition Debris, Fill)

This event is being offered to all attendees (members and non-members) at NO CHARGE. We simply ask you to R.S.V.P. to reserve a seat, as space is limited.

Please register online at:
